Rusty,

Thank you very much for including me in this call – as you know we are very interested in this issue. Unfortunately I have a medical appointment at that time and will probably not be able to participate. I will see whether our consultant, Kelly Moran, is available instead.

One question for you: Is your office still looking for feedback from customers at hardware stores where the contested bait products have been discontinued? We have a pending survey of our participating vendors but I'm not sure if the results are still of use in the EPA process.

Thank you,

Chris Geiger, Ph.D.
